

Brothers,

As you are aware, we are at the start of a new membership selection season. To date, I have received requests from 6 of the 7 corridors to have MSP. Based upon the current request, we are anticipating approximately 100 candidates who will be earnestly attempting to gain membership in our illustrious fraternity. The purpose of this message is to give notice -- as you go through the process of vetting individuals for membership and executing the MSP process, we expect that each of you will adhere to the policy and procedures that are in place to administer the process and more importantly, to ensure adherence to the "Code of Conduct."

It is unfortunate, while we are in the eve of the MSP process, the Fraternity and the District has received several allegations of inappropriate behavior relating to MSP. Let me state for the record, allegations of hazing or inappropriate behavior will be thoroughly investigated with swift and just consequences. We will not tolerate hazing or violations of the Code of Conduct. Let this message serve as fair warning, all will be held accountable and more importantly, we will seek prosecution of those who place Dear Omega in harms way.

I urge each of you who consider yourselves gatekeepers for Omega, to understand your role and responsibilities by ensuring that you have been certified or re-certified per the MSP requirements. If you have any questions, please contact your Corridor Representative, MSP Chairman, or myself.

PLEASE SHARE WITH YOUR RESPECTIVE CHAPTER MEMBERS

Fraternally,

Brother Kenneth E. Rodgers
Omega Psi Phi Fraternity, Inc
